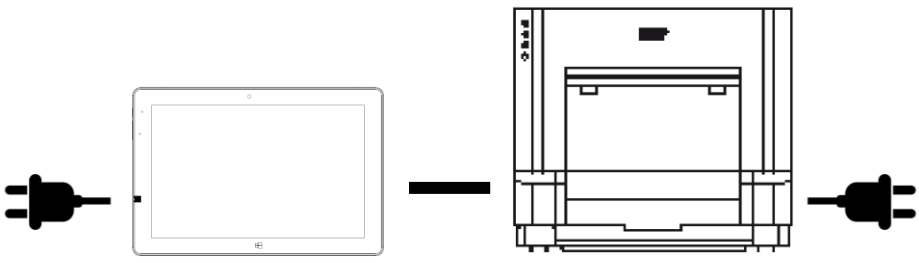
Installation *Chapter 2*

Box content

The box contents:

 ID+ Tablet	Keyboard	 Digital pen + AAAA 1.5v battery
 USB cable	 AC adapter	 OTG cable

Installation:



Make sure all power supply cables (Printer and Tablet) are connected. Now, please connect the tablet to the printer with the USB cable provided in the printer box.

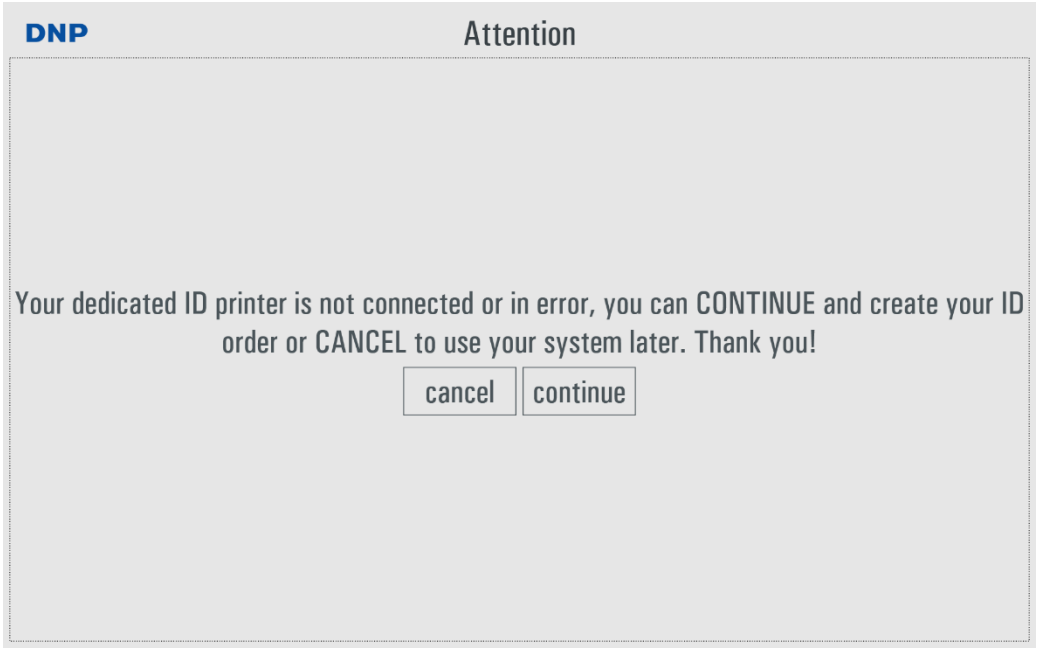
Quick Start *Chapter 3*

Note : Please note that the screen can be disconnected from the keyboard and used as a tablet.

Starting ID+ solution

1) Switch on the ID600 printer.
2) Load ID600 media into the printer (please refer to ID600 Start-up Guide).
3) Switch on the ID+ tablet (Switch ON button is on the top left side).
   ➔ After a few minutes the ID+ Software will automatically start running.

Note: If the ID600 Printer is not connected, the software will display a message informing that the printer is disconnected.



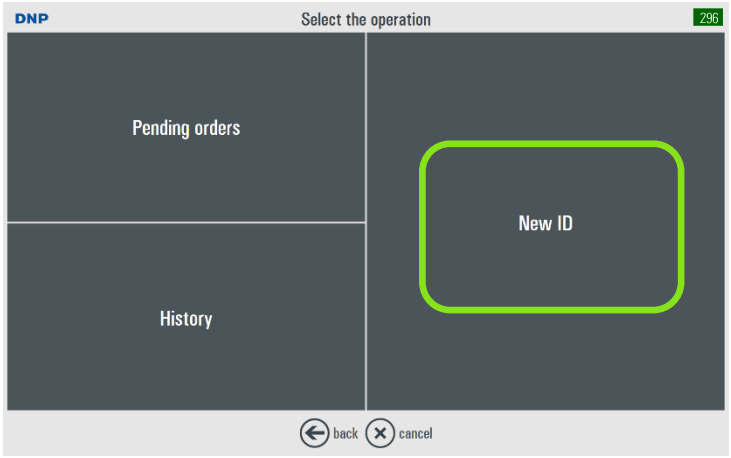
➔ You can still proceed the order (start the process until the Print Page). Your order will be saved automatically in "*Pending orders*".

When the printer is connected to the system, a green icon will appear automatically on the top right of the screen within a few seconds and indicate the remaining prints. Then, you can resume your order and print.

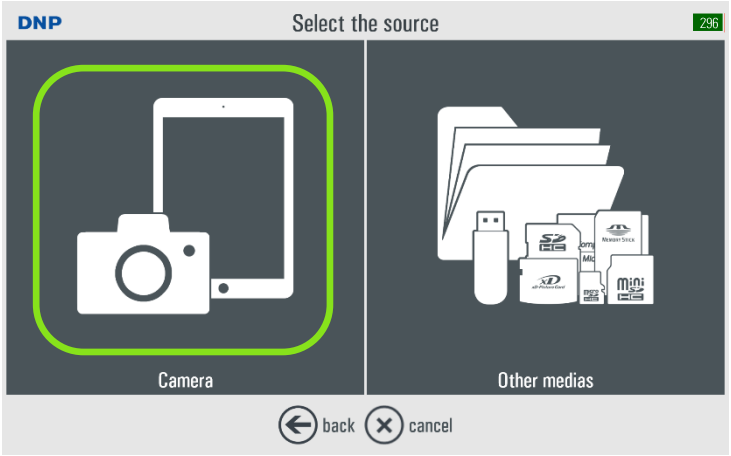
Make an ID photo order

This is the Workflow of creating and printing an ID photo.

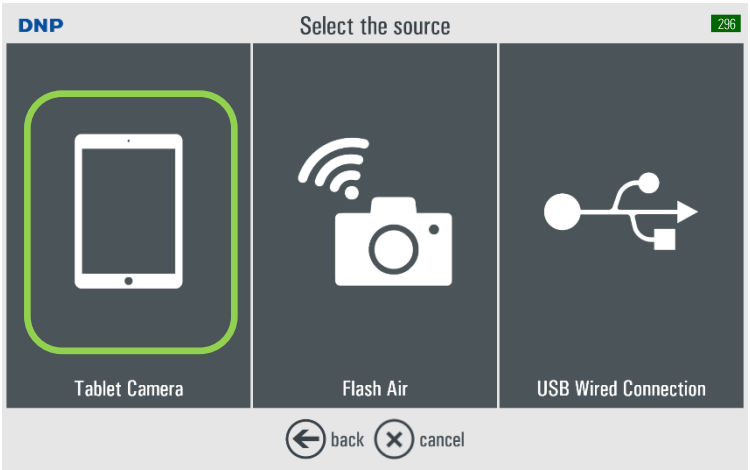
1) Select *New ID*



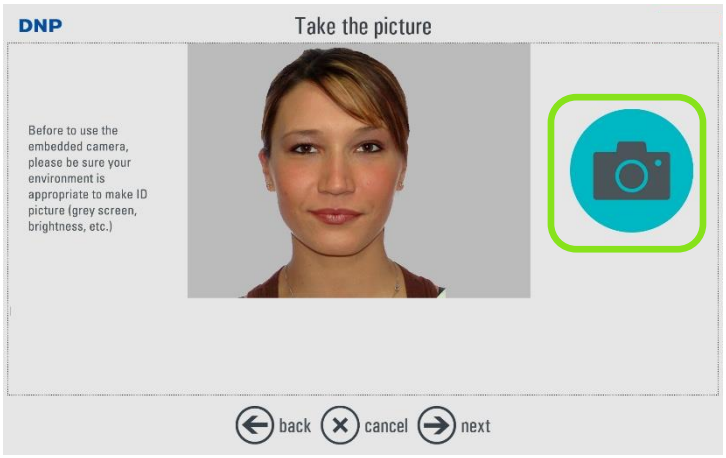
2) Select where images are located.



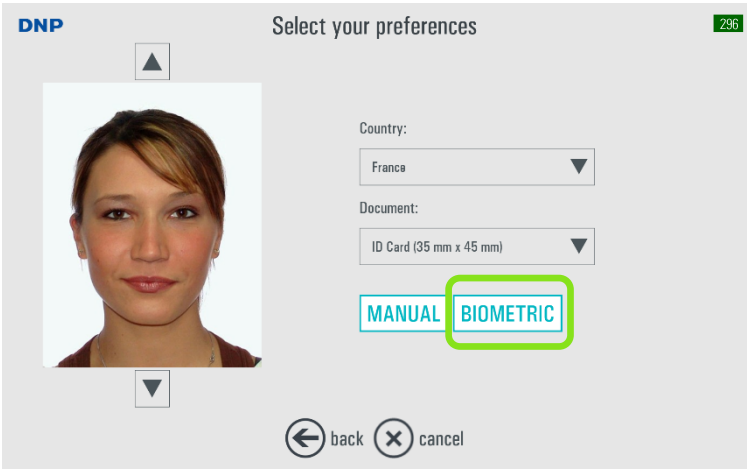
3) Select the source.



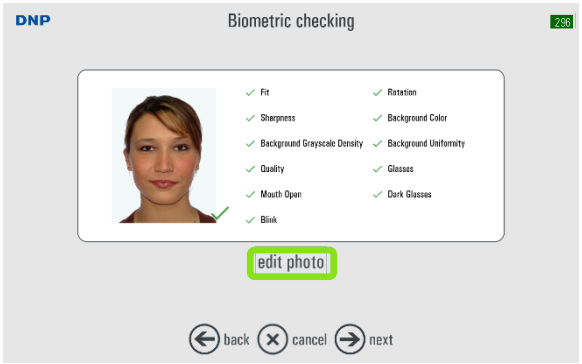
4) Take the photo and validate.

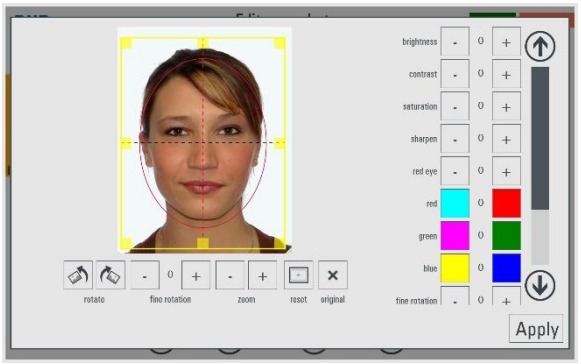


5) Choose the country and the type of document. Select *Biometric* for automatic process or *Manual* for manual editing.

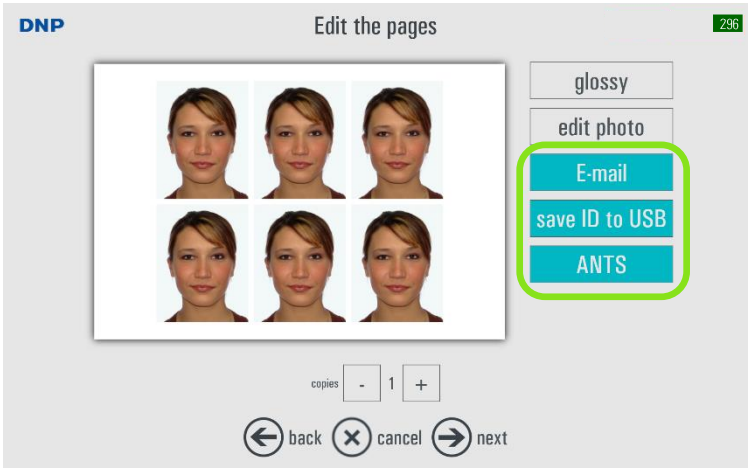


6) You get the biometric results. If necessary, you can edit manually the picture, by clicking on *edit photo*.





7) Select the options.

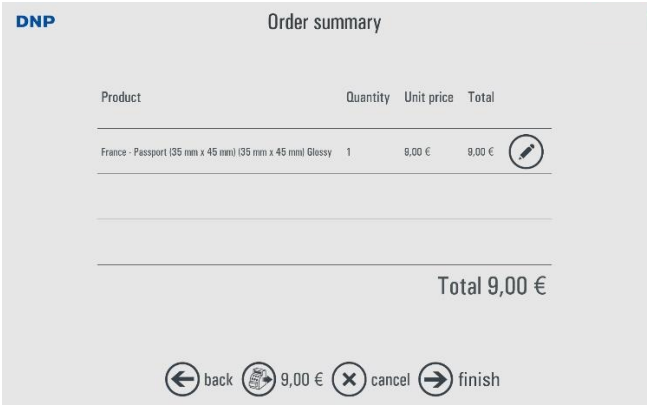


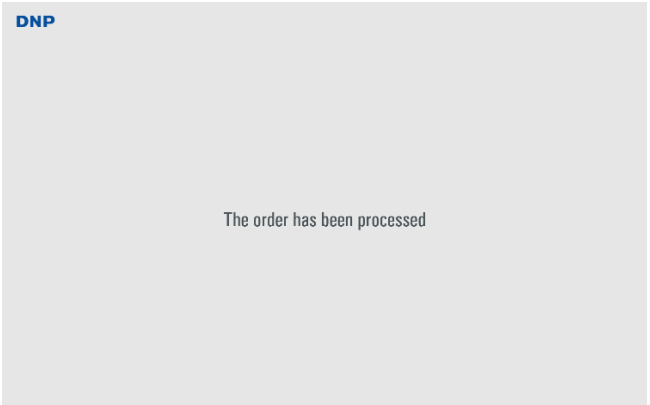
Note : Please note that the "send by email", "save ID to USB" and "ANTS" are deactivated by default. You can activate these options via the admin settings.

ANTS option is only for France (process specific to French regulations).

8) Insert Customer name.

9) Press "*finish*" to finish the order.

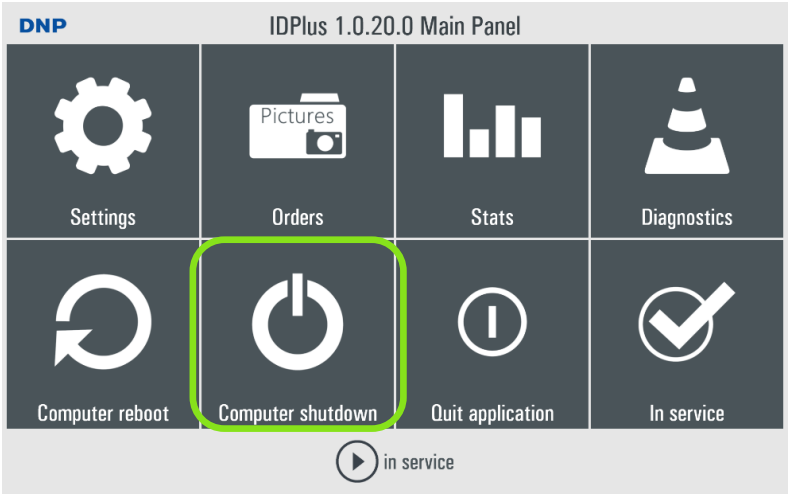




Shutdown the ID+ solution

1) Enter into Main Panel by touching in sequence the lower left and right corners of the monitor.

2) Click on **Computer shutdown** button



3) Wait until ID+ tablet automatically switches OFF
4) Switch off the ID600 printer.
5) Disconnect power cables.
