October 2019  
Version 1.3.33.3

## UK ePassport procedure with ID+ solution

In order to comply with the UK passport photo regulations, DNP has integrated the "ePassport" functionality (sending the digital identity file to an authorised server, coupled with a unique number) into its ID+ solution.

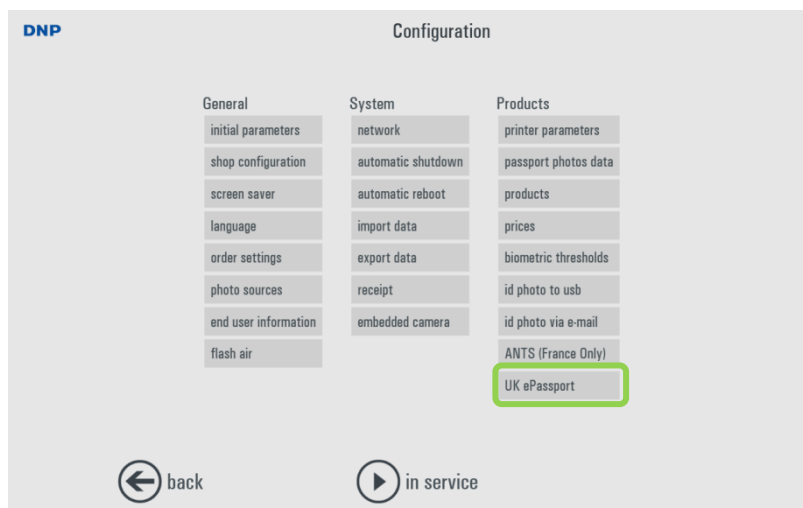

To be able to use this new feature, you must first obtain a "UK ePassport" license from DNP (product code: 369884) and integrate it into the ID+ software.

Please find below the prerequisites to benefit from this option:

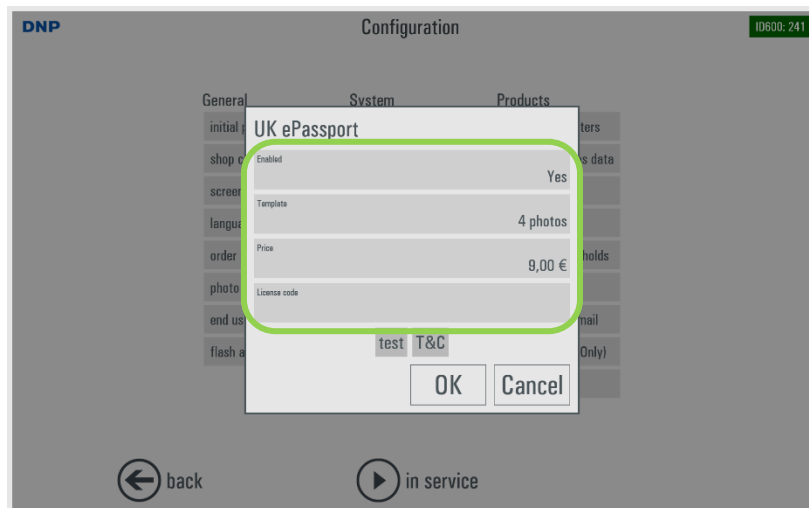

- Buy a UK ePassport license (please contact the DNP sales department)
- Have the ID+ solution (from software version 1.3.33.3 onwards) and an Internet connection

⇒ Configuration:

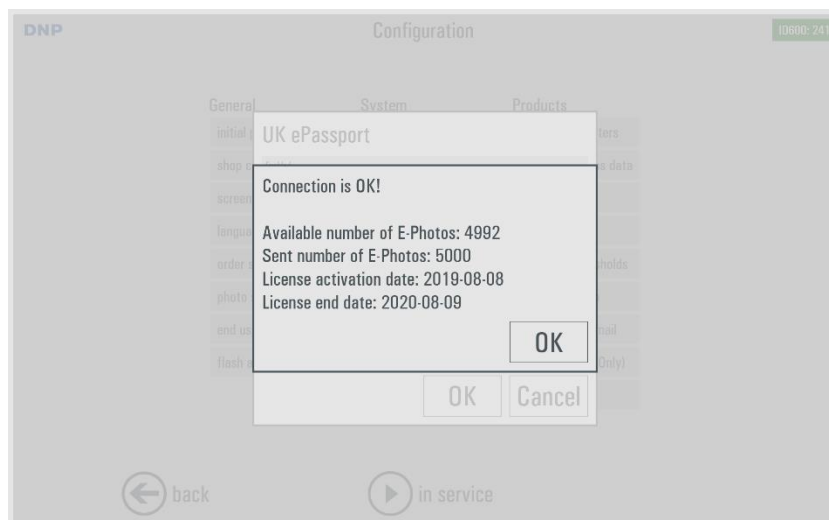

1) In the main panel menu, click on *Settings* and on *UK ePassport* button.

2) Please choose Enabled: **Yes**, select your **template** (2 or 4 photos), define a **Price** and **enter the Licence code** purchased from your DNP distributor.

- 3) After entering your UK ePassport licence code, click on *Test* button. The status of the connection and information about the licence code will be displayed. Click on *OK* button twice to go back to the Configuration screen.

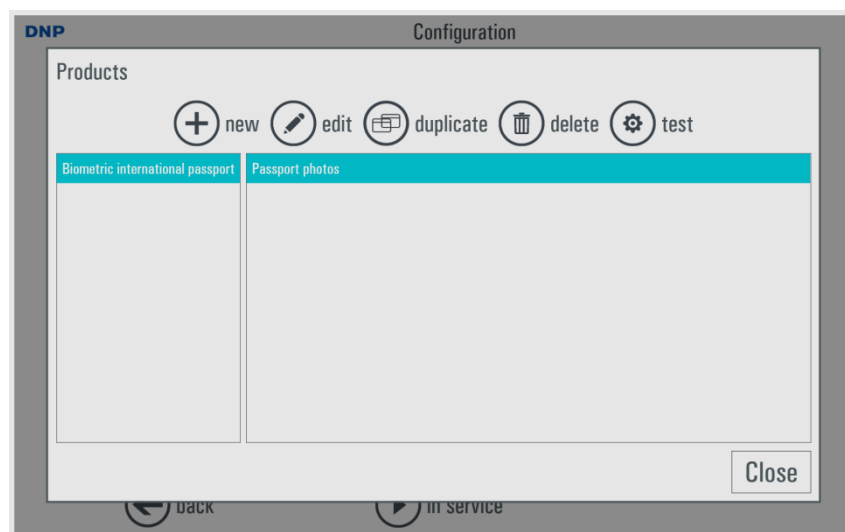

- Now that the UK ePassport licence is activated, you can create the UK ePassport product

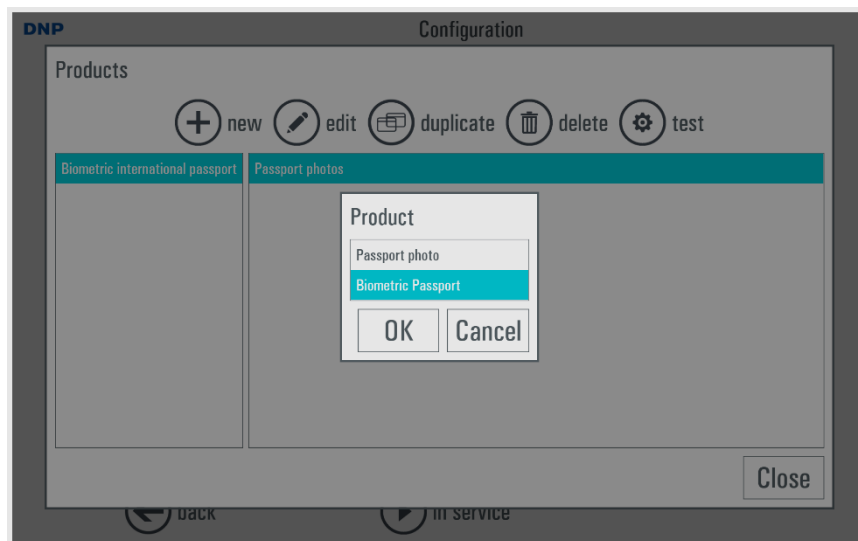

4) In the configuration screen, click on *Products* button

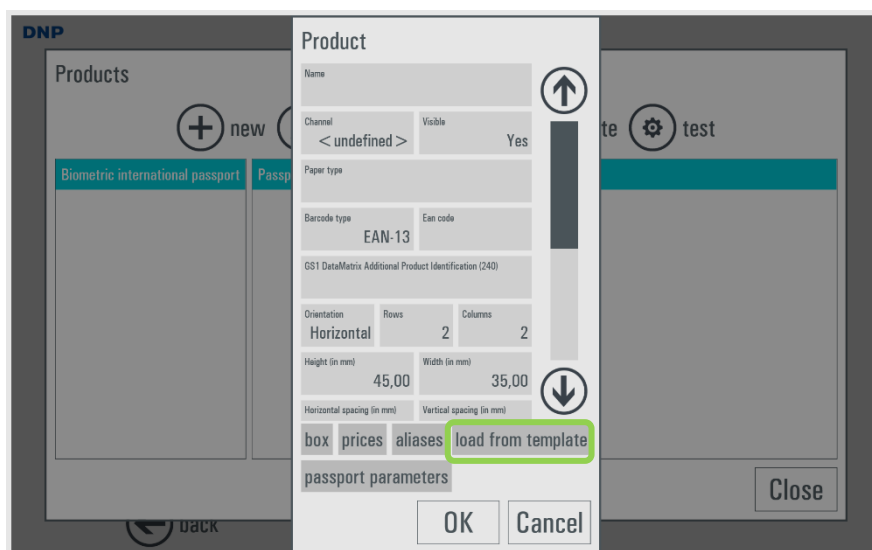

5) In Products menu, click on *+New*

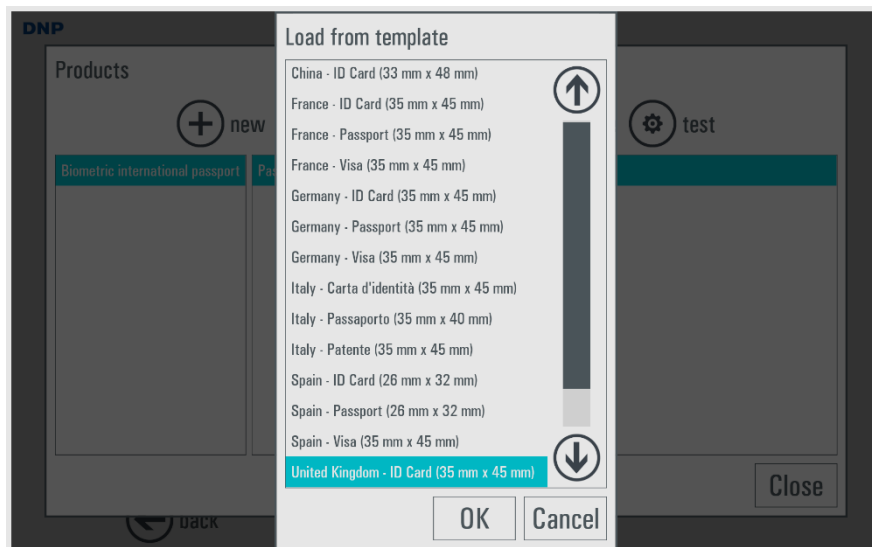

6) Select Biometric Passport and click on *OK*

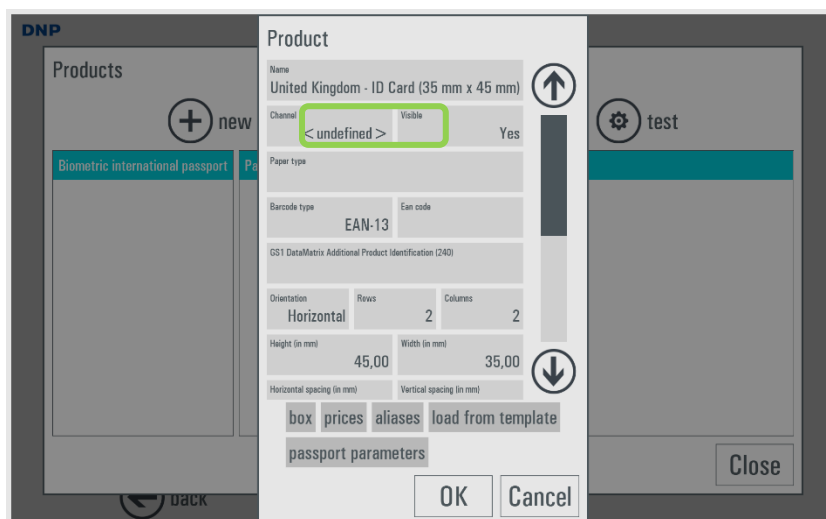

7) Click on *Load from template*

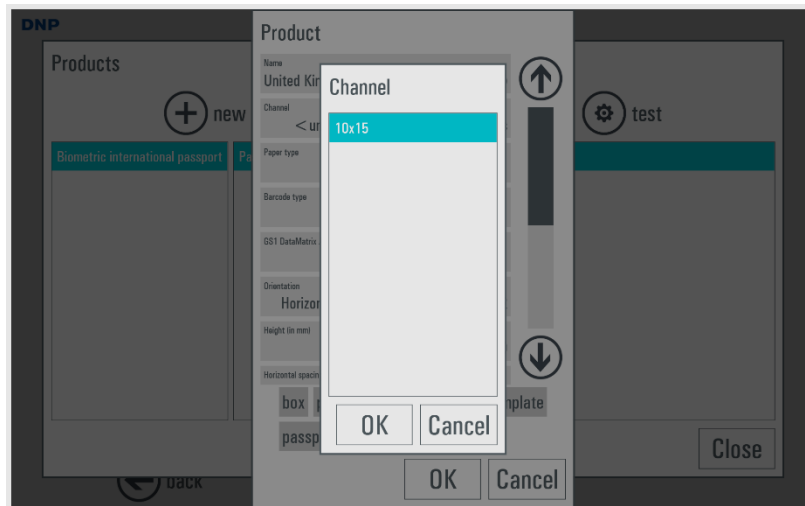

8) In the list, select United Kingdom –xxxxxxx (choose the document type based on your need) and click on *OK*

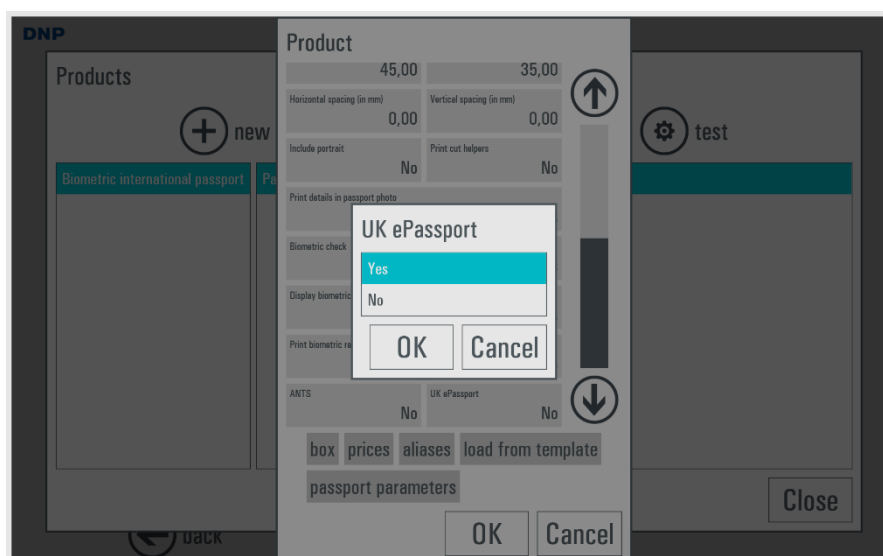

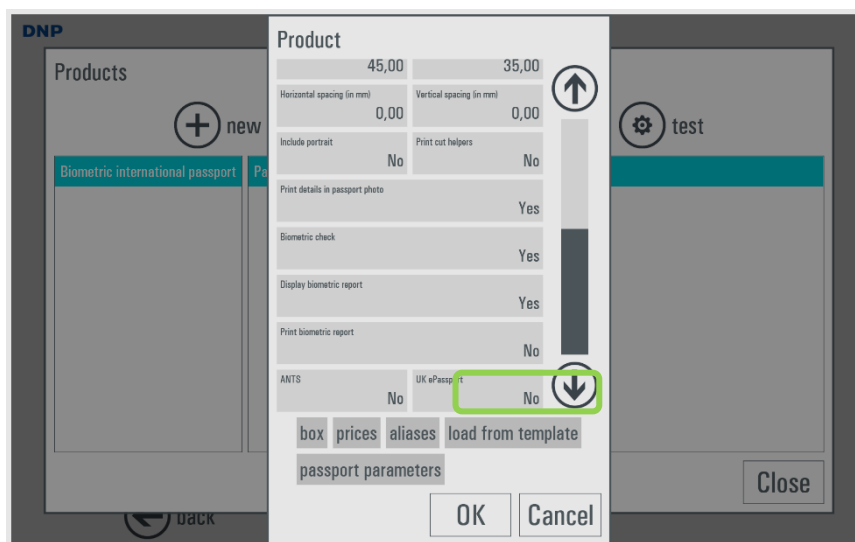

9) Click on *Channel*

10) Select 10x15 and click on *OK*

11) When you go back to the previous screen, please scroll down and click on *UK ePassport* => Change to Yes

12) Click on *OK*

The screenshot shows a 'Product' configuration dialog box within the DNP software. The dialog has a title bar 'DNP' and a 'Product' header. It contains several input fields and checkboxes for configuring a product. The 'Horizontal spacing (in mm)' is set to 45,00 and 'Vertical spacing (in mm)' is set to 35,00. 'Horizontal spacing (in mm)' is also set to 0,00 and 'Vertical spacing (in mm)' is set to 0,00. The 'Include portrait' checkbox is checked (No). The 'Print cut helpers' checkbox is checked (No). The 'Print details in passport photo' checkbox is checked (Yes). The 'Biometric check' checkbox is checked (Yes). The 'Display biometric report' checkbox is checked (Yes). The 'Print biometric report' checkbox is checked (No). The 'ANTS' checkbox is checked (No). The 'UK ePassport' checkbox is checked (Yes). Below these fields are buttons for 'box', 'prices', 'aliases', 'load from template', and 'passport parameters'. At the bottom are 'OK' and 'Cancel' buttons. The background shows a 'Products' list with 'Biometric international passport' and 'Biometric Passport' items, and a 'test' button.

Product	Horizontal spacing (in mm)	Vertical spacing (in mm)	Include portrait	Print cut helpers	Print details in passport photo	Biometric check	Display biometric report	Print biometric report	ANTS	UK ePassport
45,00	35,00	0,00	No	No	Yes	Yes	Yes	No	No	Yes

13) You successfully created your UK ePassport product!

The screenshot shows the 'Configuration' window in the DNP software. The 'Products' list is visible, showing 'Biometric international passport' and 'Biometric Passport'. The 'United Kingdom - ID Card (35 mm x 45 mm)' product is highlighted. The window has a title bar 'DNP Configuration' and a 'Products' header. It includes buttons for 'new', 'edit', 'duplicate', 'delete', and 'test'. At the bottom are 'back', 'in service', and 'Close' buttons.

Biometric Passport

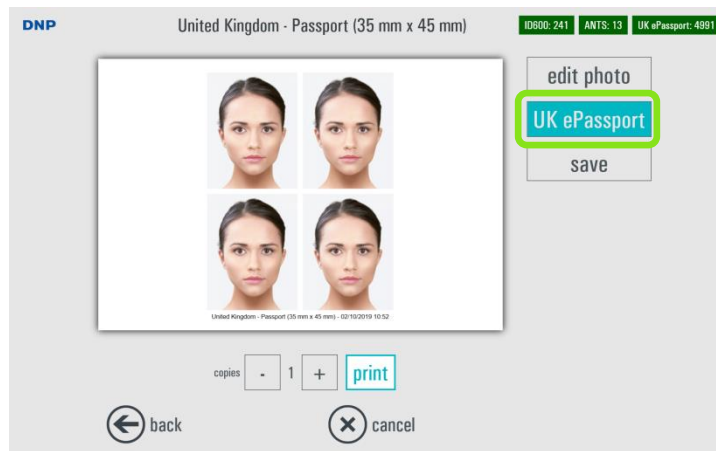

back in service Close

- You can now close your configuration menu and launch the ID+ software by clicking on the button *in service*.

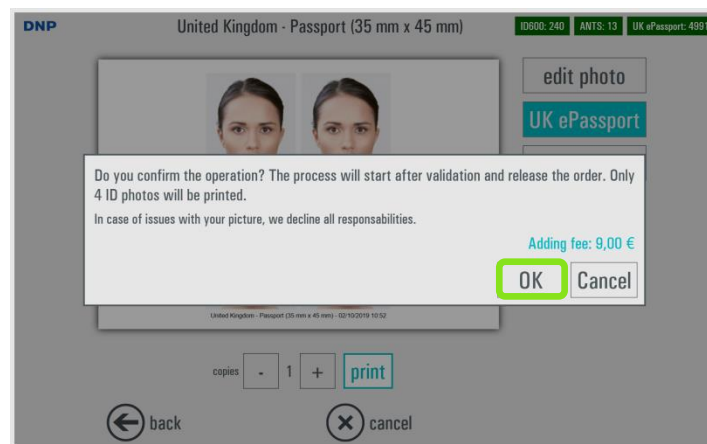

⇒ UK ePassport scenario:

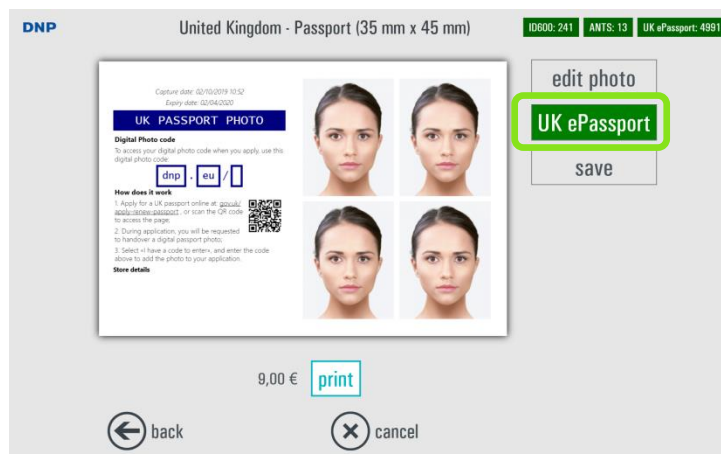

1) On the preview screen, you can choose UK ePassport to use this service.

2) Click on OK on the popup message to validate UK ePassport template.

3) The “UK ePassport” button turns green to show that this option has been selected. Press *print* button to finalize and print the order.

4) You will find the code on the printed ID sheet to apply online at: [gov.uk/apply-renew-passport](https://gov.uk/apply-renew-passport) website.
