Photo ID system

DNP
Photo Imaging

ID photos on the fly!

The ID+ photo system swiftly and easily produces all kinds of ID photos, in compliance with EU requirements. It is composed of DNP's dye sublimation ID 600 Photo Printer and a touchscreen tablet with an integrated camera, embedded with ID+ software. Biometric functions automatically adjust the photo to correctly meet specifications right from the start. The dedicated ID Media has a specific backprint 'ID Photo Paper'. The compact solution requires little space and can easily fit on any table top. ID Photos have never been so simple!
